

## Poker Chips

We offer poker chips to mark our way in sobriety.

This first one is a **WHITE** chip for 24 hours of sobriety or a desire to stop drinking.

A **RED** chip for 90 days of continuous sobriety.

And a **BLUE** chip for 6 months of continuous sobriety.

**516 is a home group, and if you would like to join this home group just put your name on the date of your last drink in our birthday book.**

**On the last Thursday of each month we have an open speaker meeting, at that time we will give you a token, have you a cake, and sing happy birthday to you badly!**
